**Coos Bay Rail Line
115 Hall Avenue
Coos Bay, OR 97420**

FREIGHT TARIFF CBR 8501

SURCHARGES		SURCHARGES																																																																																																																																																																																		
<p>ITEM 100</p> <p align="center">APPLICATION</p> <p>This publication applies to: (1) all local/proportional regulated common carrier line-haul freight rates; and (2) all local/proportional line-haul freight rates and charges with respect to exempt traffic, and local/proportional line-haul freight rates and charges in contracts, private price quotations or other pricing documents, that both reference this publication.</p> <p>In the event that the monthly average price per gallon of highway diesel fuel (as determined below, the "HDF Average Price") equals or exceeds 230.0 cents, CBR will apply a combined mileage-based and flat-fee fuel surcharge to the local/proportional line-haul rates and charges described above. The fuel surcharge will be applied to each qualifying shipment having a bill of lading or other shipping instruction dated on or after the first day of the second calendar month following the calendar month of a given HDF Average Price determination (e.g. a fuel surcharge applied beginning August 1 would be based on June's HDF average price).</p> <p>The "HDF Average Price" for a month will be the average price for that month of U.S. No.2 Diesel Retail Sales by All Sellers, as determined and published by the U.S. Department of Energy, Energy Information Administration ("DOE-EIA")¹. That average price will, in calculating the HDF Average Price, be rounded to the nearest 1/10th of a cent applying conventional rounding principles. The fuel surcharge will be applied according to the schedule provided herein, by which the HDF Average Price for the calendar months, two months prior to the calendar month of shipments exceeds 229.9 cents.</p> <p>If DOE-EIA ceases publication of the above information, CBR will employ a suitable substitute source of price or measure.</p> <p>The mileage to be applied in calculating the fuel surcharge will be based on PC*Miler Rail from ALK Technologies.</p> <p>The table shown herein reflects a sampling of the fuel surcharge within the included HDP Average Price ranges. The cents per mile will be rounded off to the nearest cent, and then multiplied by the amount of miles to obtain the mileage portion.</p> <p>Should the cost of fuel increase beyond the matrix shown herein, the increase will be \$.01 per mile for each \$.05 increase in the HDF fuel price index.</p> <p>No less than 20 days prior notice will provided of the application or any changes in this fuel surcharge tariff.</p> <p>In no case will a freight charge be reduced as a result of the application of this item.</p> <p>¹ The referenced DOE-EIA publication can currently be found at www.eia.doe.gov.</p> <p align="center">(Continued in next column)</p>	<p>ITEM 100 (Cont'd)</p> <p align="center">APPLICATION</p> <table border="1" style="width: 100%;
